

ASSEMBLY BILL

No. 434

Introduced by Assembly Member Eduardo Garcia

February 19, 2015

An act to amend Section 116380 of, and to add Section 116761.25 to, the Health and Safety Code, relating to drinking water, and declaring the urgency thereof, to take effect immediately.

LEGISLATIVE COUNSEL'S DIGEST

AB 434, as introduced, Eduardo Garcia. Drinking water: point-of-entry and point-of-use treatment.

Existing law, the California Safe Drinking Water Act, imposes on the State Water Resources Control Board various responsibilities and duties, which were previously imposed on the State Department of Public Health, relating to providing a dependable, safe supply of drinking water. Existing law required the department to adopt regulations to implement the California Safe Drinking Water Act, and to enforce provisions of the federal Safe Drinking Water Act, including requirements governing the use of point-of-entry and point-of-use treatment in lieu of centralized treatment where it can be demonstrated that centralized treatment is not immediately economically feasible. Existing law required the department to adopt emergency regulations governing the permitted use of point-of-entry and point-of-use treatment by public water systems in lieu of centralized treatment. Those emergency regulations became inoperative on January 1, 2014.

This bill would specifically make the emergency regulations adopted by the department before January 1, 2014, operative and would require that the emergency regulations remain in effect until repealed or amended by the State Water Resources Control Board. The bill would

authorize the State Water Resources Control Board to award a grant for point-of-entry and point-of-use treatment, in lieu of centralized treatment, by a public water system that meets certain requirements.

This bill would declare that it is to take effect immediately as an urgency statute.

Vote: $\frac{2}{3}$. Appropriation: no. Fiscal committee: yes.

State-mandated local program: no.
